PIPING SURVEILLANCE

PIPING TEST

D-NET MANAGER

D-NET MANAGER BASED ON OPEN GIS

- Cost-effective monitoring & operating distribution network
- Fully support standard data model for providing interoperability with other existed and planned system(SCADA, DAS, AMI etc ..)
- Provide easy data converting onto D-Net Manager from existed data
- Provide sub-system which is the most common in distribution Network

■ Design Management

- BOM (bill of materials)
- Load Analysis & Balance
- Easy find out Equipment Fault Location (by GPS value)

- Support various enhanced visualization result
- Provide distribution asset on-site investigation and reporting status
- Review/update & enhance KPI/performance
- Network Trace (affected customer list from Outage)

3D GIS STATUS CONTROL

MAP DATA VISUALIZATION

- Processing on the map screen by simultaneously superimposing various data such as image map / satellite image / vector data
- GRS 80, WGS 84, TM, UTM, MGRS support various coordinate systems such as Google coordinate system
- Three-dimensional display using altitude data

PROVIDE SPACE ANALYSIS FUNCTION

- Only data in the desired area can be displayed
- Provides attribute-based query function using SQL

WHY THE WAVUS IS...

- Successfully Completed Projects (Consulting and Software Solutions) at Korea Government & Major Distribution Enterprise
- Extensive Expertise and Reliability proven in numerous Engineering and Consulting Projects
- Market Leader and Trendsetter in ICT, GIS, LBS and Mobile Solutions
- One-Stop-Company (Consultancy, Software Solutions, Digital Mapping Data, Implementation, Support and After-Sales Services)
- Extensive Human Resources
- Stable and Reliable Partner

FUTURE

ADVANCED TECHNOLOGY

- Support all distribution network implementation over GIS
- Enhanced GIS skillset
- Integrated ICT service and Mobile platform

CREATE NEW BUSINESS

- Successful GIS business experience
- Value added LBS platform with killer application
- Skillful and successful experience consultancy

RELIABLE PARTNERSHIP

- Strengthen relationship with partner
- Excellent human resources
- One stop solution from concept design to maintenance

PROVIDE PUBLIC INTEREST

- WAVUS Integrated Control Center ensure to public safety
- Offer customer safety and relief
- Alert to public for prevent from natural disaster
